EDUCATION

The Pennsylvania State University 2026-2027
B.S., Security and Risk Analysis (Information and Cyber Security)

MassBay Community College 2024-2026
Cybersecurity | Dean's List

CERTIFICATIONS

CompTIA SecAI+ | CompTIA CySA+ | CompTIA Security+ | Microsoft Azure (AZ-900) | Okta Certified Professional

Purdue University: AI Policy and Governance Certification

TECHNICAL SKILLS

Platforms & Cloud: Microsoft Azure, Amazon Web Services (AWS), Windows, Linux, Microsoft 365

Frameworks: NIST CSF, NIST RMF, CIS Controls, ISO/IEC 27001, OWASP Top 10, SOC 2

Security Tools: Microsoft Sentinel (SIEM), Splunk (SIEM), Microsoft Defender (EDR), Tenable Nessus, SentinelOne Singularity XDR/EDR, Okta, Microsoft Entra ID

Skills: Identity and Access Management, Risk Assessment, Incident Response, Threat Hunting, KQL, SPL, OSINT

PROFESSIONAL EXPERIENCE

CyberTrust Massachusetts 01/2026 – Present
SOC Analyst

- Assessed client security maturity against the CIS Critical Security Controls, identified high-risk gaps, and delivered prioritized remediation roadmaps that accelerated security program maturity and strengthened overall security posture.
- Identified and investigated security threats through proactive threat hunting and L2 incident response, delivering risk-based remediation guidance that contributed to a 60% reduction in residual risk.
- Engineered and tuned SentinelOne detections aligned with the MITRE ATT&CK framework, increasing the true positive rate to 90% while reducing alert fatigue.

Log(N) Pacific 01/2026 – 07/2026
Cyber Security Support Analyst

- Conducted vulnerability assessments with Tenable, documented risk reports, and implemented PowerShell remediations, driving 100% / 90% / 76% reductions in critical, high, and medium vulnerabilities.
- Validated detection and response controls through proactive threat hunting across Microsoft Defender for Endpoint using KQL, documenting findings tied to brute-force and ransomware activity.

Vizgen 12/2024 – 08/2025
IT Support Specialist

- Administered account and privilege lifecycles in Entra ID, enforcing least-privilege access governance through RBAC and MFA.
- Supported the setup of SSO utilizing SAML for new SaaS apps in Entra ID.

PROJECTS

Threat Hunt: Unauthorized TOR Browser Usage | Microsoft Defender for Endpoint, KQL, Azure

- Developed KQL queries against Defender for Endpoint telemetry to investigate TOR usage and trace activity from installer download to outbound relay connection.

AWS Least Privilege Audit Automation

- Built an AWS IAM audit tool to identify excessive permissions and map controls to SOC 2 CC6.3 and NIST 800-53 AC-6.

LEADERSHIP & ACTIVITIES

Client Support Team Lead

- Lead a client support team of SOC interns, coordinating daily task assignments and mentoring new analysts on triage, tooling, and client communication.
